Mission Moments

Like many in Somalia, Farhan, his parents and younger sibling live in a camp for internally displaced people, having been forced from their home due to ongoing drought. At eight months old, Farhan became severely dehydrated and his life was seriously threatened. He was admitted to a hospital and received urgent treatment. After two weeks of monitoring and treatment, Farhan was discharged from the hospital and admitted to an outpatient clinic supported by Presbyterian World Service & Development, where he receives weekly health assessments and therapeutic and supplementary food as he makes his way to a full recovery.
