Mission Moments

Parbati Damai lives in Nepal with a spinal cord injury she endured after falling down a hill three years ago. During that time, her family took her to the local hospital for emergency treatment, where she underwent multiple surgeries and started using a wheelchair. However, with her husband and sons working during the day, she was often left at home in her wheelchair for 10 to 14 hours daily, causing pressure sores to develop on her body. Parbati's local health facility couldn't provide her with the help she needed, so they referred her to the Green Pastures Hospital for further treatment. There, with the support of PWS&D's partner, she received treatment and counselling free of charge. Parbati hopes to complete her treatment and return home soon.
