Mission Moments

World hunger is a more pressing global challenge than ever. An increasing number of people around the world suffer from worsening and chronic food insecurity and malnutrition. Climate change, conflict, and poverty exacerbated by global inflation are key factors worsening this crisis. Hunger threatens physical and mental well-being and hinders social and economic development. Through its partners, PWS&D is responding to the hunger crisis in East Africa, where millions of people are suffering from increased food insecurity. Conflicts, such as those in Sudan and the Democratic Republic of Congo, are forcing hundreds of thousands of families from their homes. Furthermore, extreme climate weather events across the Horn of Africa have created high hunger levels. Through PWS&D, we are helping to provide emergency support to people affected by the food crisis.

If you are looking to purchase a different type of Christmas gift this year you might consider something from the 'Gifts of Change' catalogue. *Make a gift in the name of a friend or family member and they will be sent a card acknowledging the donation.* Catalogues will be available on the **Welcome** table soon with instructions on how to order in it.
