*Our services are ... Faith filled, Inspiring and Joyful!*

**Mission Moments:** Katia Bien-Aime, a senior nurse and coordinator for a nutrition program in Haiti, recalls a time when a significant number of children failed to return for follow-up care after initial treatment at the nutrition clinic. She knew something needed to be done. In response, PWS&D's partner, who also runs the original clinic, decided to begin mobile clinics. Today, these mobile units have proven successful in bridging the gap and allowing healthcare providers to get closer to their patients, easier follow-ups and enabling the delivery of crucial basic medical care directly to villages and homes. "It worked," Katia says. "We were able to get to the

really sick kids faster and earlier." In addition, the mobile units provide tools to make water safe for drinking and to promote better sanitation and hygiene practices.
