MISSION MOMENT

World Health Day aims to raise awareness about global health issues and promote actions to improve health and well-being worldwide. However, due to substantial cuts to global health funding in 2025, many communities and individuals have lost access to essential health programs. PWS&D collaborates with partners to support health initiatives in difficult environments. In Haiti, for example, PWS&D, in partnership with the Center for Nutrition and Education for Women & Children, is supporting maternal and infant malnutrition treatment and women’s mental health.
